PROFESSIONAL SUMMARY

Second-year B.E. Computer Science and Engineering student with strong programming, analytical, and debugging skills. Proficient in Python, Java, and SQL, with a keen interest in software development, data systems, and emerging technologies. Seeking an internship to enhance technical expertise and gain real-world experience in the IT industry.

EDUCATION

BE - CSE	Loyola-ICAM College of Engineering and Technology	CGPA:	7.95/10	2024 - Present
Grade 12	Vidhyasagar International Public School	Score:	80.4%	2023 -2024
Grade 10	Vidhyasagar International Public School	Score:	85.4%	2021 - 2022

PROJECTS

1.POSTURE MONITOR

Role : Backend Developer

Designed and developed an AI Automated Cybersecurity Scanner, a project aimed at leveraging AI to enhance threat detection and security analysis.

2. AI AUTOMATED CYBERSECURITY SCANNER

Role : Front end developer

Developed a real-time posture monitoring system as a team to improve posture, reduce health issues, and assess ts potential adoption in the health and wellness market.

3.VAXI-TRACK

Role : Full Stack Developer (Frontend & Database)

Vaxi-Track is a web-based Digital Immunization Tracking System designed to address these issues. The system allows parents and healthcare workers to maintain digital immunization records, receive automated reminders for upcoming vaccinations, and schedule appointments at nearby health centers. By digitizing vaccination management, Vaxi-Track improves healthcare efficiency, reduces missed doses, and supports SDG 3 – Good Health and Well- Being.

4.CATTLE BREED RECOGNIZATION USING AI CAMERAS

Role : ML Developer

This project focuses on solving the challenge of accurate cattle breed identification in agriculture using advanced AI techniques. The system is capable of classifying 11 different cattle and buffalo breeds with high accuracy, providing farmers and veterinary professionals with quick and reliable breed recognition.

TECHNICAL SKILLS

Python, Java, C, HTML, CSS, SQL, Canva

CERTIFICATES

- Database Programming with PLSQL - ORACLE
- Database Programming with SQL - ORACLE
- The Complete Python Developer Certification Course - Udemy

WORKSHOPS

Hands-on Workshop on Client Library Development for Apache CloudStack

Developed a client library for interacting with Apache CloudStack APIs to enable efficient cloud resource management. Implemented mock testing to simulate API responses and support reliable third-party software integrations.
